Release Notes: Version 8.2
Release Date: 2/26/2023

Bug Fixes

- The Pay Type Hours Report will only display data for the Pay Type criteria selected.
- Improvements were made to the Manage Leave Request page to resolve performance issues.
- A false error message no longer appears when making an employee a supervisor over a group from the Group Management page as long as it is a valid assignment.
- The mobile app will no longer generate an error message of "0" when requesting leave using an end-dated Charge Code.
