

Release Notes: Version 8.5

Release Date: 1/21/2024

New Features

- Users with the Accountant Role will be able to import the W2 files for 2023.

Improvements

- Separate W2 forms will be generated when W2 files are imported for employees with more than one state.
- Users without the Administrator, Accountant or Human Resources roles will no longer have access to view TeamKeeper's technical support contact information from the Help Desk menu option

Bug Fixes

- The Username Report will display active users, inactive users or both depending on the selected group option selected.
- Employees can now select a task to charge to on their timesheet if the start date of the task is after the start date of the timesheet.
- For Standard Reports, the options to Download Excel File and Download CSV File are now fixed and will generate the expected results.
